

Health-ID Management in Europe – *one touchstone for interoperability* –

Expert Workshop

co-organised by EHTEL, MinVWS (Dutch Ministry of Health) and NICTIZ
in the framework of the i2-Health project (funded by eTEN/Eur.Commission).

**Amsterdam (Schiphol), The Netherlands
20–21 March 2006**

Dorint Sofitel Amsterdam Airport – Stationsplein 951 ZW, 1117 CE Schiphol (Oost)

Health-ID Management, i.e. uniquely identifying persons and organisations is an essential prerequisite for any modern health system. Interoperability of Health-IDs is mandatory for many other interoperability problems to be solved. The workshop will establish an extensive snapshot of the “State-of-the-Art” to Healthcare Professionals & Organisations as well as Citizens (Insured Persons) and Patients Identification and some recommendations.

Programme

<i>Monday, 20 March 2006</i>
